

Smart Home

Sharp and clear 1080p full-HD provides high-quality video right in the palm of your hand.

Swipe up, down, left and right on your phone to rotate and set the camera's point of view.

When motion activity is detected, Kasa Spot Pan Tilt tracks and follows the subject to keep it within the camera's field of view.

Upgrade your Kasa Care subscription plan and enjoy full video recordings for up to 30 days.

Even at night, the camera will detect activity 30 ft. away with Night Vision.

Set multiple distinct viewpoints and program your pan tilt camera to keep an eye on each region at intervals of your choosing.

Use crisp two-way audio to communicate with nosy roommates, family or even mischievous pets.
